SCHÖNE TÖCHTER**

WARUM GIBST DU NICHT EINFACH ZU,  
DASS DU KEINE PFERDE ZEICHNEN KANNST?

SCHLACHTZ!

WWW.DER-FLIX.DE

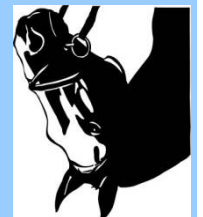

Es gibt

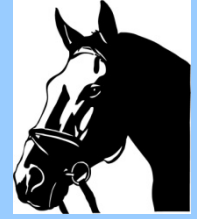

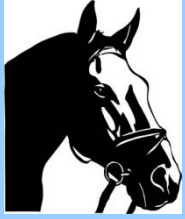

**Weisheiten**

und

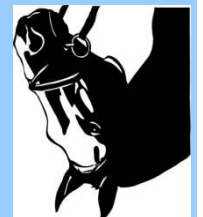

**Lösungsstrategien**

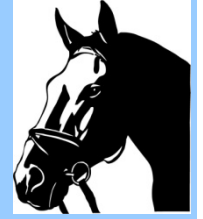

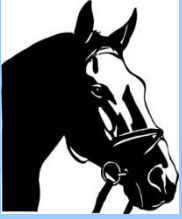

für Probleme ...

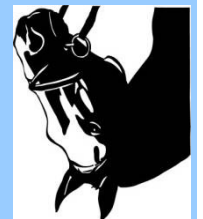

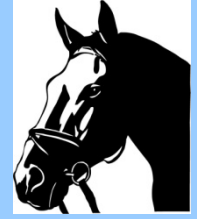

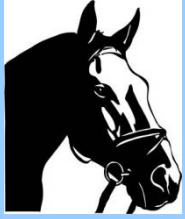

Eine Weisheit  
der Dakota Indianer lautet:  
**» *Wenn Du merkst,  
dass Du ein totes Pferd reitest,  
steig ab!*«**

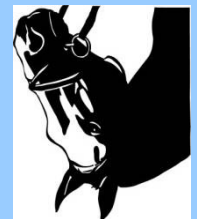

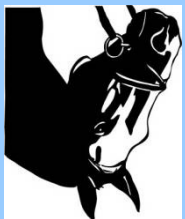

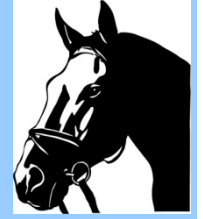

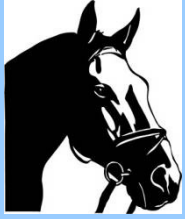

Doch im Berufsleben versuchen  
wir oft andere Strategien,  
nach denen wir handeln ...

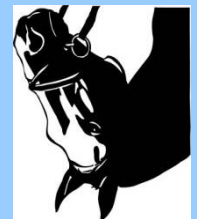

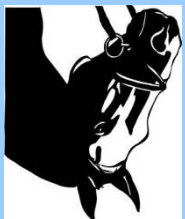

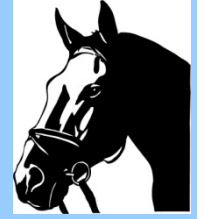

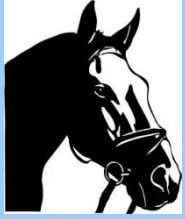

... wir besorgen uns eine  
stärkere Peitsche!!!

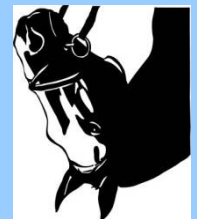

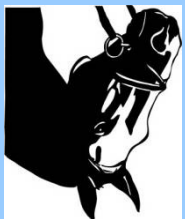

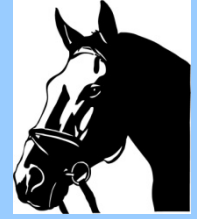

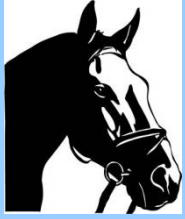

... wir wechseln die Reiter!!!

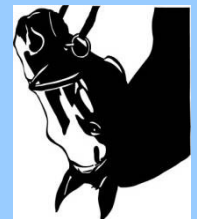

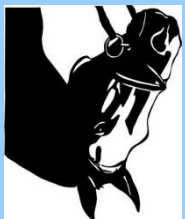

... wir sagen, so haben wir das  
Pferd doch immer geritten!!!

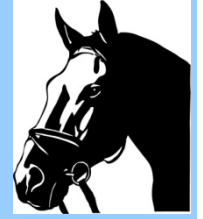

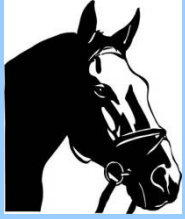

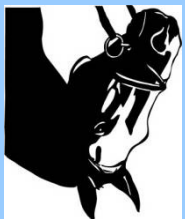

... wir gründen  
einen Arbeitskreis,  
um das Pferd zu analysieren!!!

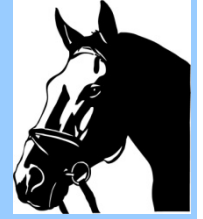

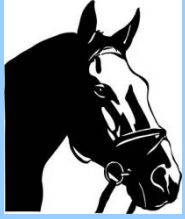

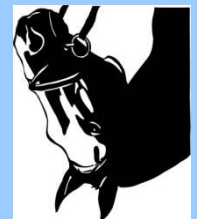

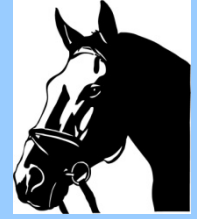

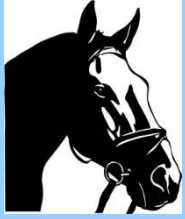

... wir besuchen andere Orte, um  
zu sehen, wie man dort  
tote Pferde reitet!!!

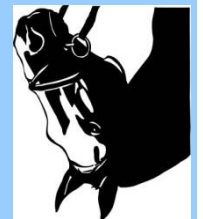

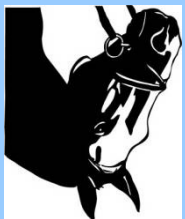

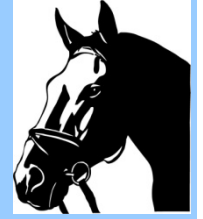

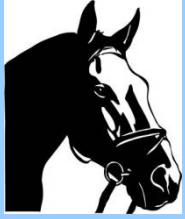

... wir erhöhen  
die Qualitätsstandards  
für den Beritt toter Pferde!!!

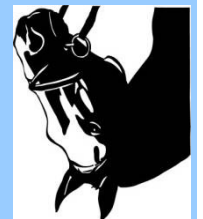

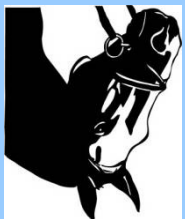

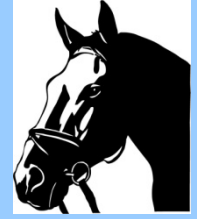

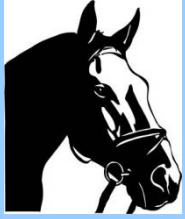

... wir bilden eine Task-Force, um  
das Pferd wiederzubeleben!!!

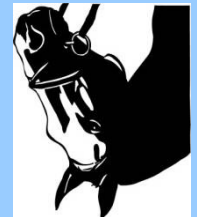

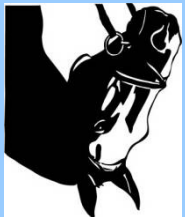

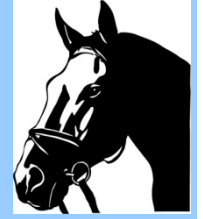

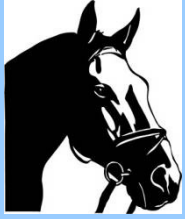

... wir schieben eine  
Trainingseinheit ein,  
um besser reiten zu lernen!!!

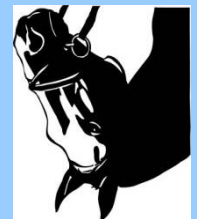

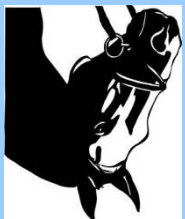

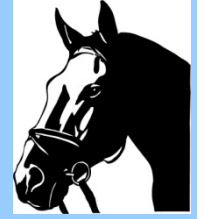

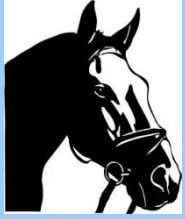

... wir stellen  
Vergleiche unterschiedlicher  
toter Pferde an!!!

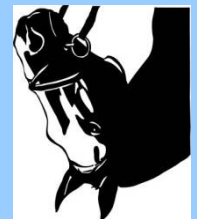

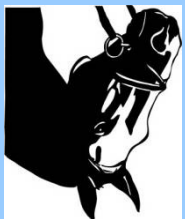

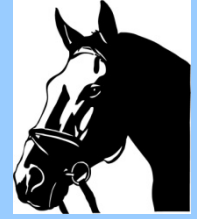

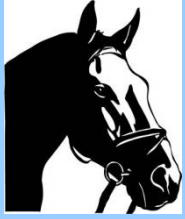

... wir ändern die  
Kriterien, die besagen,  
dass ein Pferd tot ist!!!

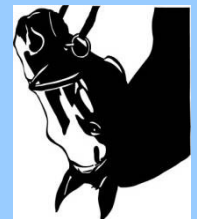

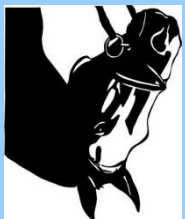

... wir schirren mehrere  
tote Pferde gemeinsam an, damit  
wir schneller werden!!!

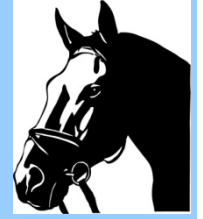

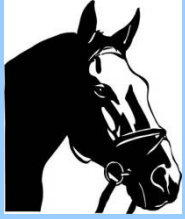

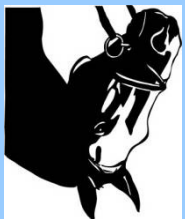

... wir erklären:  
Kein Pferd kann so tot sein,  
dass man es nicht  
mehr reiten kann!!!

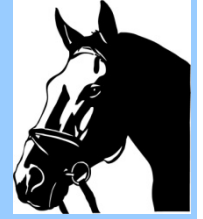

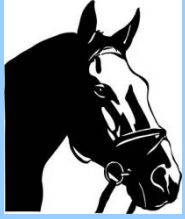

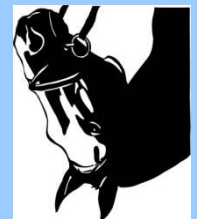

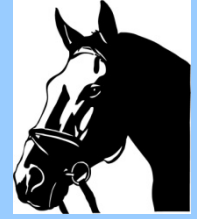

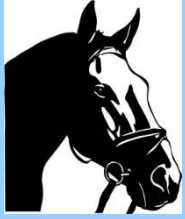

... wir machen eine Studie, um zu  
sehen, ob es bessere oder billigere  
tote Pferde gibt!!!

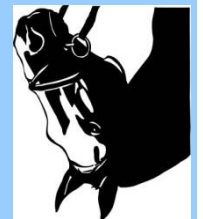

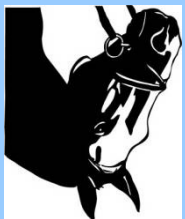

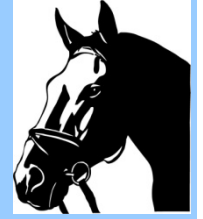

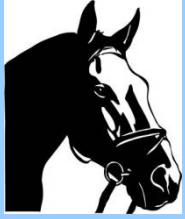

... wir erklären,  
dass unser Pferd  
besser, schneller und billiger tot ist  
als andere Pferde!!!

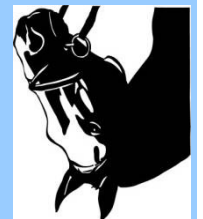

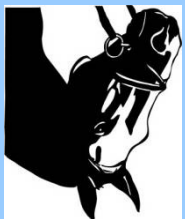

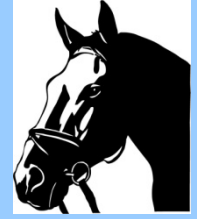

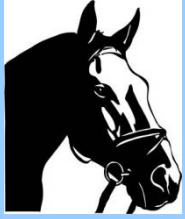

... wir bilden Qualitätszirkel,  
um eine neue Verwendung  
von toten Pferden zu finden!!!

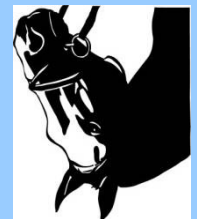

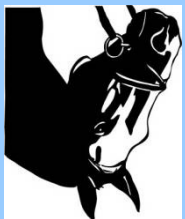

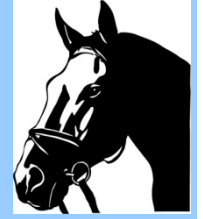

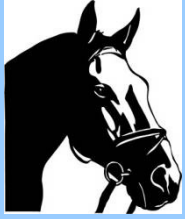

... wir richten eine unabhängige  
Kostenstelle für tote Pferde ein!!!

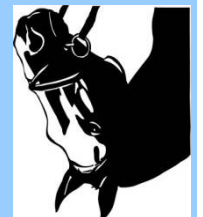

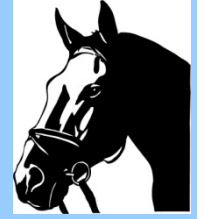

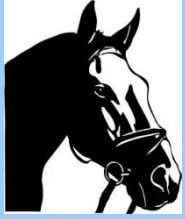

... wir machen eine Studie,  
um zu sehen, ob es billigere  
Berater gibt!!!

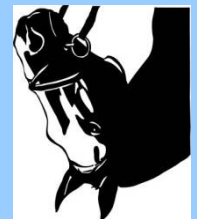

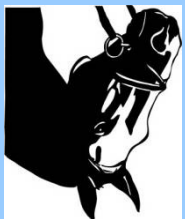

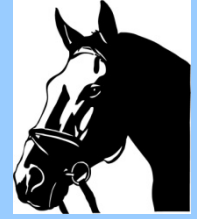

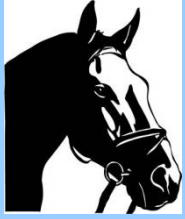

... wir entwickeln  
ein Motivationsprogramm  
für tote Pferde!!!

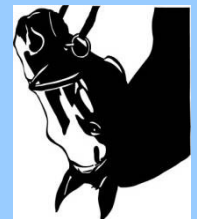

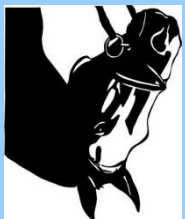

... wir verbessern die  
Öffentlichkeitsarbeit und sagen:  
„*Unser* Pferd ist quicklebendig!“

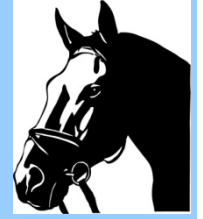

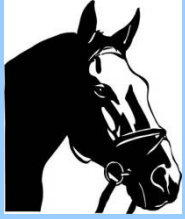

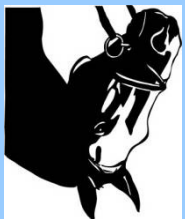

... wir bilden Stabsabteilungen, die  
sich mit der Problematik toter  
Pferde beschäftigen!!!

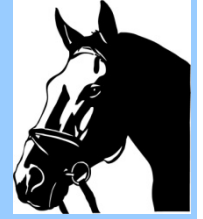

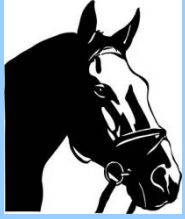

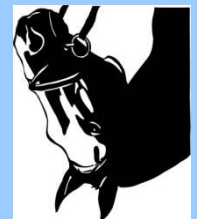

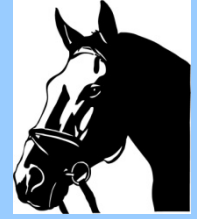

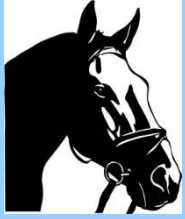

... wir fusionieren mit anderen, die  
viel Erfahrung mit dem Reiten toter  
Pferde haben!!!

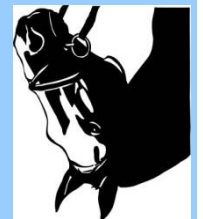

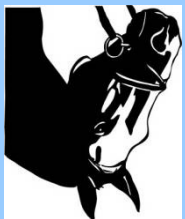

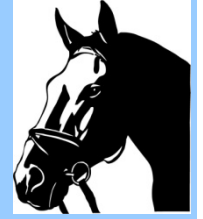

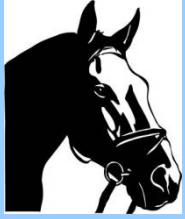

... wir kaufen Leute  
von außerhalb ein, die angeblich  
tote Pferde reiten können!!!

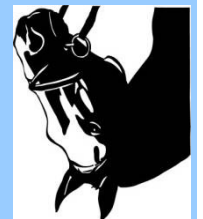

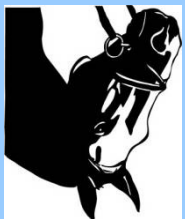

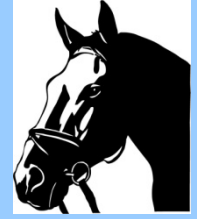

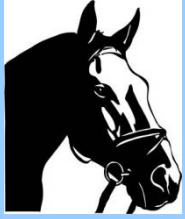

... wir prangern die  
gesellschaftliche Diskriminierung toter  
Pferde massiv an!!!

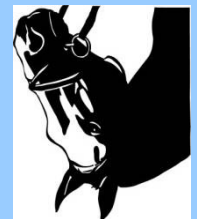

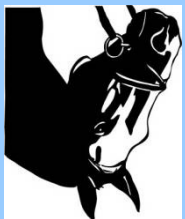

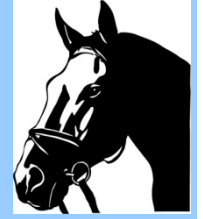

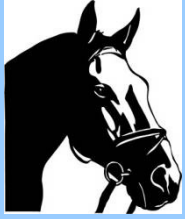

... wir strukturieren den Stall um!!!

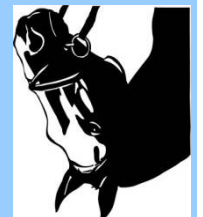

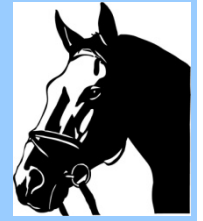

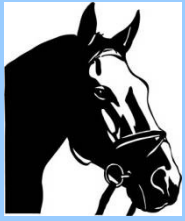

... wir gründen das Pferd um  
in eine gemeinnützige GmbH!!!

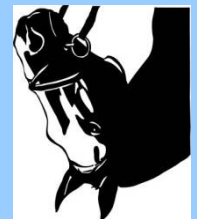

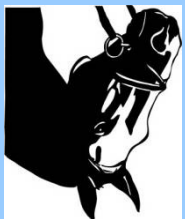

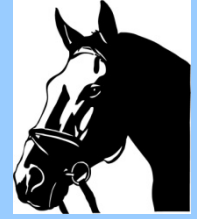

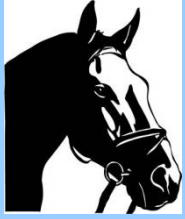

... wir verweisen auf  
unsere lange Tradition  
des Reitens toter Pferde!!!

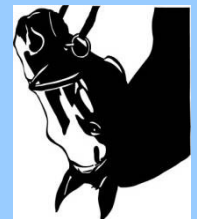

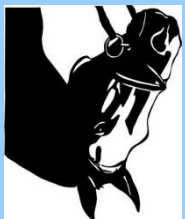

... wir erklären,  
nie Pferde gehabt, geschweige  
denn, geritten zu haben!!!

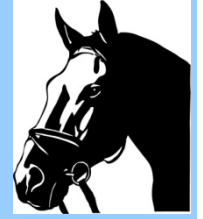

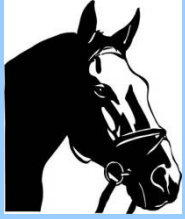

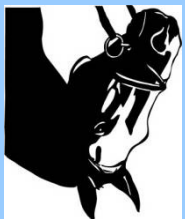

... wir können nicht absteigen, weil  
wir von toten Pferden leben und  
Familie haben!!!

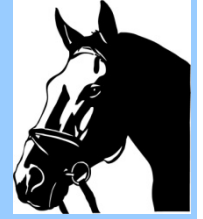

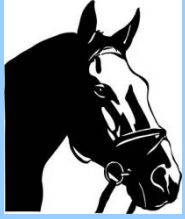

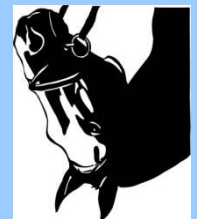

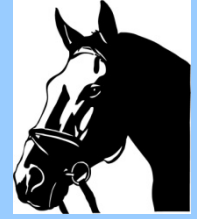

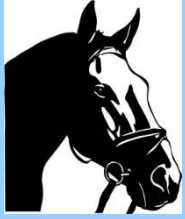

... wir haben den Ehrgeiz,  
zum Vorreiter  
von toten Pferden zu werden!!!

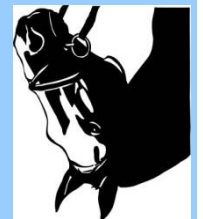

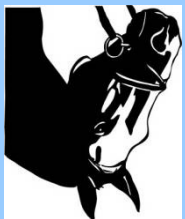

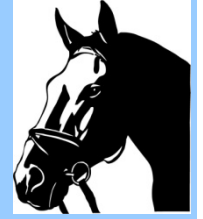

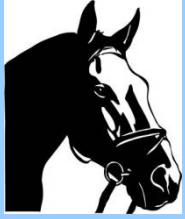

... wir vergrößern („job-enlargement“) und verkomplizieren („job-enrichment“) den Verantwortungsbereich toter Pferde und tauschen sie anschließend untereinander aus („job-rotation“)!!!

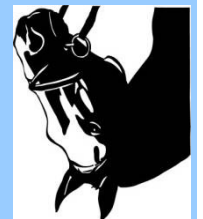

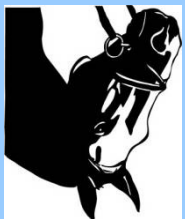

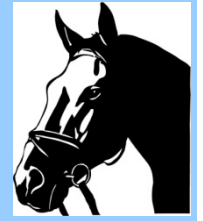

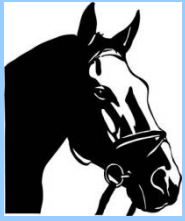

**... wir strukturieren um,  
damit ein anderer Bereich  
das tote Pferd bekommt!!!**

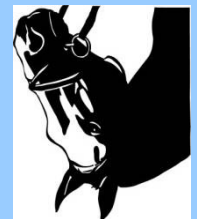

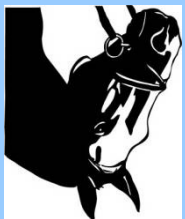

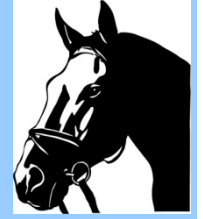

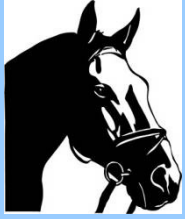

... wir lassen das  
Pferd schnellstens  
zertifizieren!

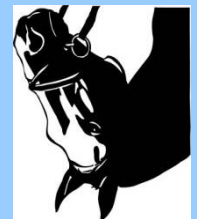

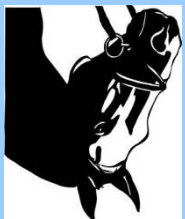

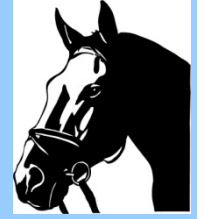

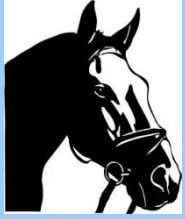

... wir frieren das  
Pferd ein und warten auf eine neue  
Technik, die es uns ermöglicht,  
tote Pferde zu reiten!

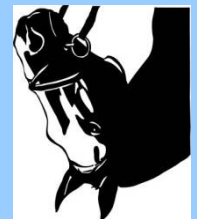

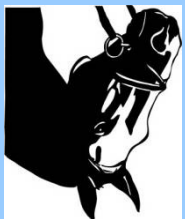

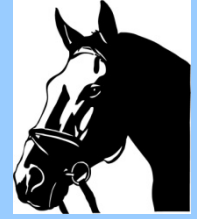

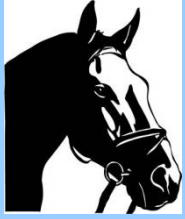

... wir bilden  
einen Gebetskreis, der unser  
Pferd gesund betet!

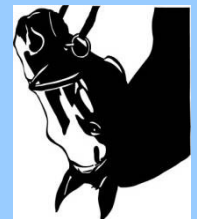

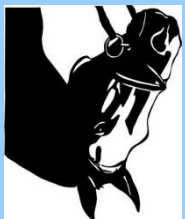

... wir stellen das tote Pferd bei  
jemand anderem in den Stall und  
behaupten, es sei seines!

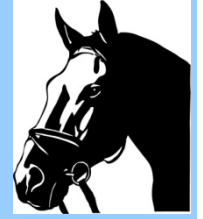

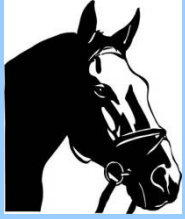

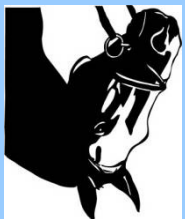

... wir ändern die  
Anforderung von „reiten“ in  
„bewegen“ und erteilen einen  
neuen Entwicklungsauftrag!

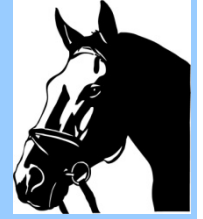

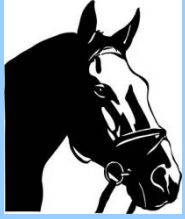

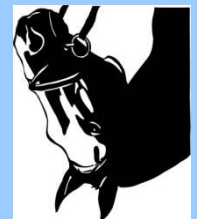

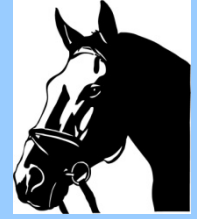

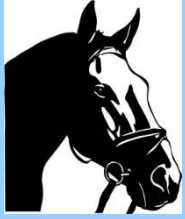

... wir sourcen das tote Pferd aus!

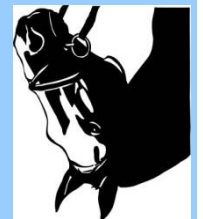

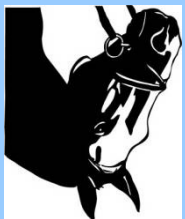

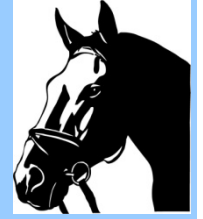

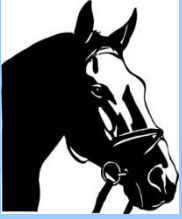

**... wir wetten, dass  
das Vieh nur simuliert!**

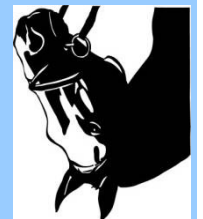

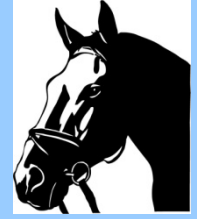

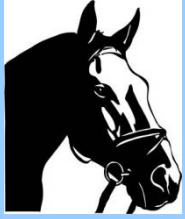

... wir stellen fest, dass andere auch  
tote Pferde reiten und erklären dies  
zum Normalzustand!

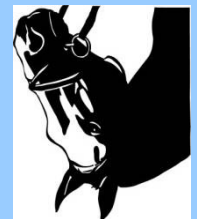

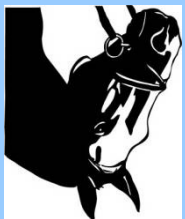

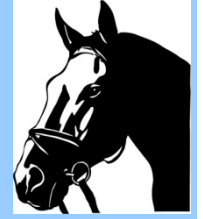

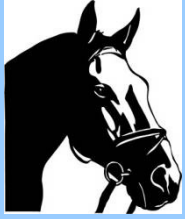

... wir starten einen internen  
Ideenwettbewerb zum Reiten  
toter Pferde!

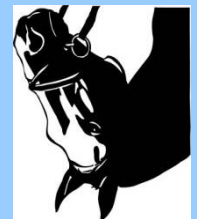

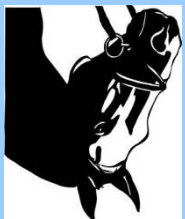

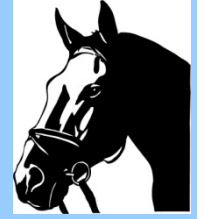

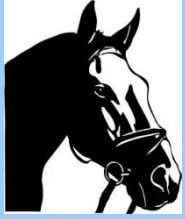

... wir lassen das tote Pferd nach  
DIN EN ISO 9001 zertifizieren!

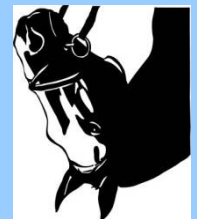

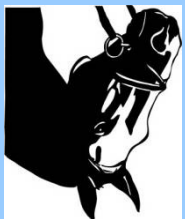

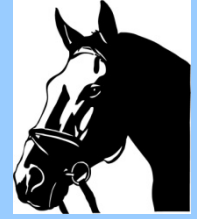

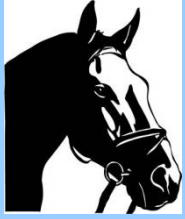

... wir erklären: Wenn man das tote Pferd nicht mehr reiten kann - so kann es doch wenigstens eine Kutsche ziehen!

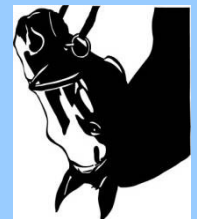

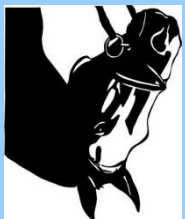

... wir definieren ein eigenes  
Produkt: „Reiten toter Pferde“!

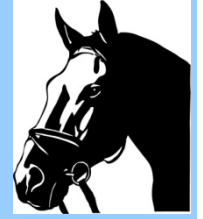

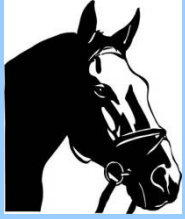

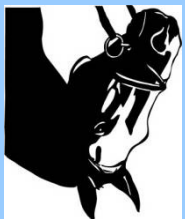

... wir tauschen das tote Pferd  
gegen eine tote Kuh aus!

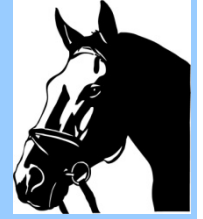

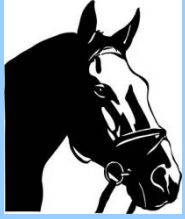

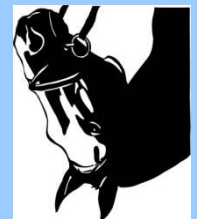

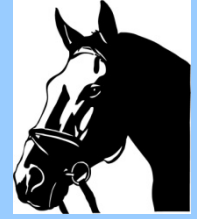

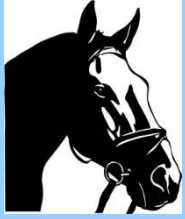

... wir erschießen alle lebendigen  
Pferde, um die Chancen unseres  
toten Pferdes deutlich zu erhöhen!

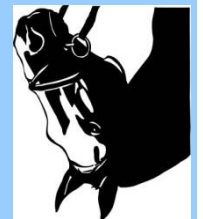

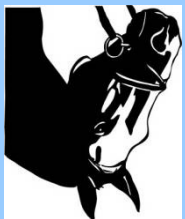

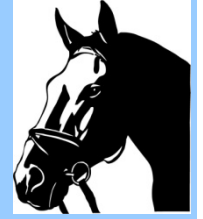

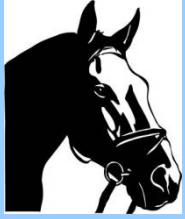

... wir erklären, dass ein totes Pferd  
von Anfang an unser Ziel war!

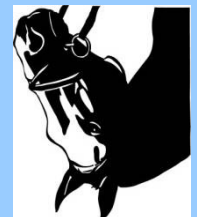

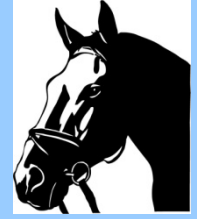

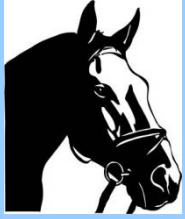

... eine von uns beauftragte  
renommierte Beratungsfirma erklärt,  
dass tote Pferde kein Futter benötigen  
und empfiehlt uns, nur noch tote Pferde  
zu verwenden.  
Das tun wir!

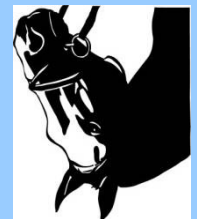

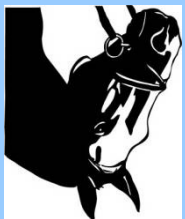

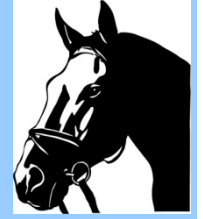

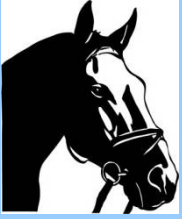

... ein Ergänzungsgutachten stellt fest, dass die Leistung eines toten Pferdes etwa doppelt so hoch ist wie die eines Beamten - und empfiehlt die Verbeamtung des toten Pferdes!

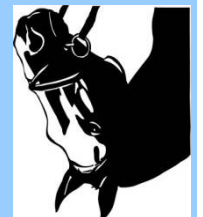

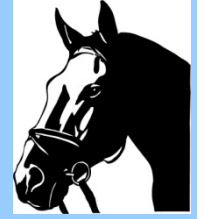

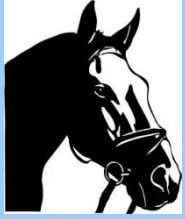

... wir organisieren regelmäßige  
Teamgespräche mit einem externen  
Supervisor, um die Kommunikation  
zwischen Reiter und totem Pferd  
deutlich zu verbessern!

... wir schlagen dem Personalrat vor,  
Leistungsanreize für tote Pferde  
einzuführen!

**... wir erläutern dem Pferd, dass  
sein Verhalten zur Privatisierung  
der Dienstleistungen führen kann -  
und dann sei es erst „richtig“ tot!**
